

The Total Eclipse Business Closing List

Unlikely to be another event like it in our lifetime, people young and old will remember where they were the day we were in total darkness from the Solar Eclipse on Monday, August 21, 2017.

As the official stations of solar related events, coverage and news, Eagle Communications will air business closings periodically up to a week prior to Total Eclipse Day, August 21. Simply fill out the bottom of this form and get it to your Eagle Radio Account Executive no later than Tuesday, August 15. Just like school closings, we will include your business in the list of closures or alternate hours.

There is no charge for this service, however, there is a deadline to get on the list. Deadline: August 15.
